I met Steve face to face this morning and reinforced that there can be no discussions with the CPUC on settlement that is not sanctioned by us. There will only be one spokesperson appointed by us. I noted we are in listen mode only--Steve has yet another "social dinner" with President Peevey this weekend??

I pressed Steve as to whether his two previous meetings were listen only given we have heard whispers of leaks from the CPUC of significant SCE presence on the issue. He said he did not engage. He said the CPUC leaks like a sieve to which I commented that only reinforced my no unsanctioned engagement statement. By the way, Ed Randolph is currently in the hot seat for recording a private meeting with legislators without gaining prior consent and then getting caught.

For what it is worth, he volunteered independently that we should only engage with TURN at first (he mentioned Matt Friedman). I used that as an opportunity to seek out the answer to our question on "TURN without DRA". Steve said that can be done, but would likely result in a "protested settlement" with a hearing--DRA of course filing the protest. He would recommend considering inviting DRA in later in the process. I took it all under advisement. He said President Peevey feels strongly about Geesman. I merely responded his testimony shows him to be merely a "bomb thrower". He said is smart and could be trusted--"at least when he was in a superior position as a regulator". I again stated his testimony was inflammatory.

I left meeting uneasy. I am pondering another conversation clearly stating that unauthorized engagement would result in dismissal--but common sense would dictate that without saying it. Any thoughts would be appreciated.

Boxer has come unhinged...she's done this before to SCE back in the days of the energy crisis. I just heard that she said she would "disembowel" the NRC if they allow restart. What we need is someone with courage at the NRC to stand up to her and do the right thing. We'll see, but my hope is fading.

SONGS Press Release: SCE Exercised Responsible Oversight for Replacement Steam Generators at the San Onofre Nuclear Plant

Commissioners, FYI, attached is SCE's press release released yesterday regarding SONGS.

[attachment "SCE Press Release 5-28-13 FINAL .pdf" deleted by Michael Hoover/SCE/EIX]

SCE Exercised Responsible Oversight for Replacement Steam Generators
at the San Onofre Nuclear Plant

ROSEMEAD, Calif., May 28, 2013 — Letters released today by Southern California Edison (SCE) demonstrate that it exercised responsible oversight of the vendor of the San Onofre nuclear plant replacement steam generators before any designs were completed or approved.

SCE is restating its position after allegations from U.S. Sen. Barbara Boxer at a press conference this afternoon regarding correspondence from SCE to Mitsubishi Heavy Industries (MHI), the manufacturer of the replacement steam generators. SCE provided the November 2004 correspondence referenced by Sen. Boxer and a June 2005 letter from SCE to MHI to the Nuclear Regulatory Commission (NRC) in April in connection with ongoing NRC proceedings.

“In response to Sen. Boxer’s statement, we believe that the determination for restart must be made based on technical merits, through the established nuclear regulatory process,” said Pete Dietrich, SCE senior vice president and chief nuclear officer.

“SCE’s own oversight of MHI’s design review complied with industry standards and best practices.” He added. “SCE would never, and did not, install steam generators that it believed would impact public safety or impair reliability.”

The November 2004 and June 2005 letters have also been provided to parties involved in a California Public Utilities Commission investigation and are now posted online.

These letters emphasize the importance of careful attention to the design of the steam generators. Recognizing that SCE was not the designer of the steam generators and that there were limitations on the assistance SCE could provide, the letters identify a number of design issues that SCE asked MHI to focus on to ensure that design flaws were not inadvertently introduced.

SCE took numerous steps to ensure that MHI appropriately addressed these concerns, including design review meetings, executive oversight meetings, and meetings of many other groups of SCE and MHI personnel.

“We take very seriously our responsibility to ensure we protect the public’s health and safety,” Dietrich said. “These documents demonstrate the type of careful oversight that SCE exercised during the replacement steam generator project and also served to establish our expectations of MHI.”

In the November 2004 letter, SCE emphasized the care that would be needed during the design phase because of the differences between the new and old units. These differences—which were intended to improve the overall performance of the new units—were permitted under the NRC’s 50.59 process, which allows changes to a nuclear facility if certain criteria are met. Contrary to Sen. Boxer’s suggestion, Section 50.59 does NOT require that replacement equipment be “like for like” or identical to the equipment being replaced.

Instead, the very purpose of the regulation is to permit certain types of design changes. In general, a licensee may make a change to the design of a licensed facility without prior NRC approval if the change does not require a change to the plant’s NRC-approved technical specifications or if the change would not change the facility “as described in the safety analysis report.” This report is the official description of the nuclear plant that was approved by the NRC in the initial licensing, as updated throughout the life of the plant.

SCE advised the NRC that the San Onofre steam generators contained a number of different features from the previous design. In fact, safety evaluations prepared by the NRC in connection with amendments to the San Onofre license associated with the steam generator replacements described the most important of those changes in detail. At no time did SCE hide the differences from the NRC, nor did it seek to mislead the NRC concerning the applicability of Section 50.59 to the project. Any suggestion that seeks to draw from the November 2004 letter a contrary conclusion is simply incorrect and relies on the fundamental error of viewing Section 50.59 as applying to identical, or “like for like” replacements.

A leak occurred in one of the San Onofre steam generators in January 2012, and both units have remained shut down since then. The NRC has determined that the problems in the steam generators were associated with errors in MHI’s computer modeling, which led to underestimation of thermal hydraulic conditions in the generators.

The San Onofre nuclear plant is the largest source of baseload generation and voltage support in the region and is a critical asset in meeting California’s clean energy needs. Both units at the plant are currently safely shut down. Unit 2 was taken out of service Jan. 9, 2012, for a planned outage. Unit 3 was safely taken offline Jan. 31, 2012, after station operators detected a leak in a steam generator tube.

More information is available at www.edison.com/SONGSupdate and at www.SONGScommunity.com. San Onofre is jointly owned by SCE (78.21 percent), San Diego Gas & Electric (20 percent) and the city of Riverside (1.79 percent). Follow us on Twitter (www.twitter.com/SCE) and Facebook (www.facebook.com/SCE).

About Southern California Edison

An Edison International (NYSE:EIX) company, Southern California Edison is one of the nation’s largest electric utilities, serving a population of nearly 14 million via 4.9 million customer accounts in a 50,000-square-mile service area within Central, Coastal and Southern California.

Wanted to give you a quick report on my phone calls with Governor Brown, Senator Feinstein and Mike Peevey. They all were quite positive and constructive.

Governor Brown--about 10 minutes (was in Rancho Mirage with Pres. Obama, Chinese). Appreciated call. Asked some questions about decommissioning and number of employees. He said what we were doing seemed right under the circumstances, good to reduce uncertainty, and took a little swipe at NRC bungling the process which was going to cause harm to CA. Fished for whether we were going to blast NRC or Boxer; I said "no, I didn't see any mileage in that. We were taking the high road and focusing on the future and insuring system reliability for our customers." He said he agreed that was best approach. I indicated that I imagined his office would get media calls tomorrow about this and would be looking for his reaction; I indicated that if he was so moved, it would help if he could indicate we had talked and that he thought the company was acting responsibly and focused on the right things. He indicated a willingness to do that.

Senator Feinstein--about 15 minutes. She was incredibly warm, understanding and supportive. Asked several questions about employee impacts, decommissioning process, spent fuel storage. Never specifically mentioned Boxer, but recognized how "tough this must have been for us". Thanked me for all the briefings; said she knew we had worked this issue very hard, trying to do the right thing, been very deliberate, etc, etc. Told me she was going to issue a statement after our call tomorrow complimenting the company and me for doing the right thing for customers and CA, etc. I told her providing the press with positive comments about Edison would be greatly appreciated as a counter-balance to some of the recent jabs to our reputation, and that her offer meant a great deal to me.

President Peevey--actually two calls, as the first one was interrupted by the Governor's call. Constructive, positive. Glad to get this uncertainty over with and focused on their ratemaking OII. Said he was going out with a statement after our investor call; his statement will focus on "urging the parties to meet and see if they could come up with a settlement to submit to the CPUC" and that he was going to convene a task force of sorts including the two utilities and various state agencies to work on insuring reliability. We talked about my call with the Governor, and I asked him to see if he could get the Governor to say something supportive about our handling of the situation and looking forward.

If any of you are dying to get up early and listen to the investor call at 5:30 am Pacific, the details are 1-800-369-2198; passcode "Edison". You may have to give your name to the operator and your company (just say EIX director).

Thanks again for your time today.

The following message body may have embedded images.

See Mike's note below about his discussions with Florio's chief of staff. They're encouraging us to get "out front" early on settling this with the parties and to do everything we can to keep this out of the Commission's hands. They've learned much from the San Bruno effort (i.e. claims that the commission is in the "pockets" of the utilities) and want to avoid a repeat as much as they can.

Who will have the lead in formulating our strategy for settlement?

Subject: SONGS Conversations At the CPUC

FOR INTERNAL USE ONLY

I'm sure you-all are thinking along the same lines, but it is really important that we stay in touch on SONGS and what the various agencies are doing saying, etc.

I've touched base with all of the chiefs of staff at the CPUC - most of the Commissioners are out but have already talked to Ted - and they all ask the same question: Is the timing of the decision significant? I tell them that with no decision looming at the NRC, the economics of the plant just don't add up and its time to get on with life - delaying the inevitable hurts our customers, our investors, and our employees.

Sepideh of Florio's office was fairly forthright. She said we need to move quickly to address cost recovery and other shutdown issues going forward. We discussed how to do that in a manner that is inclusive of the parties

and avoids the type of animosity toward the CPUC that has plagued the PG&E San Bruno proceeding. Ideas to consider are filing a motion for Alternate Dispute Resolution at the CPUC, outreach to the leaders of the key stakeholder groups involved in the Songs proceeding to initiate discussions quickly. We agreed that it would be best if SCE got out in front in terms of trying to put a process in place that would result in resolution of the issues in a manner that does not rely on protracted hearings etc. Delay only hurts everyone.

We discussed some of the reliability issues as well. Sepideh has been approached by the water board and they have indicated a willingness to make available all of the pumping load for water projects as Demand Response whenever needed and to re-evaluate their OTC policy. We need to work cooperatively with all of these folks.

Thanks

You beat me to it! Tried calling...your line's busy. Call me cell anytime at Redacted--
Privacy. Meeting went well. Nice lunch with Peevey. Friendly and cordial. Mike says no ERRA until SONGS settled. He also said that the boundaries of any decision would be that we get all our capital and no replacement fuel, or none of our capital and all replacement fuel. Ron responded that it would be a combination of disallowances of the two...no reaction from Mike. Ron did say that he felt good about the progress of settlement discussions with multiple parties. Mike asked about timing...Ron couldn't say. I told Mike that no action by the Commission on ERRA is placing us in extremely difficult financial situation. Told him we're undercollecting \$100 million each month...same situation as under the energy crisis. He was very surprised to hear the numbers are that large.

Photo Op a non-event. Mike got a plaque from the city. Ed Royce just reviewed the history and patted himself on the back for their field hearing on the matter. He said that the "people won"...that "the process worked". Said SCE played by the rules, and is now proceeding to build the project on a positive footing. Ron's comments brief...about us working with the city to ensure safety and minimize disruptions.

Photo Op a non-event. Mike got a plaque from the city. Ed Royce just reviewed the history and patted himself on the back for their field hearing on the matter. Mike said that the "people won"...that "the process worked". Said SCE played by the rules, and is now proceeding to build the project on a positive footing. Ron's comments brief...about us working with the city to ensure safety and minimize disruptions.

Subject: Your Action: Stakeholder Cascade - Proposed CPUC Settlement Agreement

FOR INTERNAL USE ONLY

All,

Please see the attached reactive statement regarding today's proposed settlement agreement regarding the CPUC's investigation of the San Onofre nuclear plant steam generator replacement project and the subsequent shutdown of the plant. I have also pasted it in.

SCE-CPUC-00000206

Please share as appropriate with your key stakeholders. I have attached our cascade list.

The media relations team is using this reactively, however, we are reaching out to our key reporters who have been following SONGS.

Additionally, I have attached an internal FAQ and the 8K for your information - this is for internal use only - please do not distribute.

Thank you,

Liese

SCE Statement on State Regulatory Settlement Regarding San Onofre Nuclear Plant ROSEMEAD, Calif., March 27, 2014 — Southern California Edison (SCE) today entered into a settlement agreement with parties in the California Public Utilities Commission (CPUC) investigation of the San Onofre nuclear plant steam generator replacement project and subsequent shutdown of the plant. Ron Litzinger, president of SCE, issued the following statement regarding the settlement with The Utility Reform Network (TURN), the Office of Ratepayer Advocates of the CPUC and San Diego Gas & Electric:

“This proposed settlement means that customers don’t pay for the steam generator project after the tube leak at San Onofre, leaving SCE financially responsible for its ownership share in the project. Our customers will pay for replacement power they received.

“The settlement, if approved by state regulators, provides certainty regarding the appropriate cost recovery for the remaining investment in the San Onofre nuclear plant, replacement power costs and authorized revenues.

“We have worked closely with key consumer stakeholders to resolve the San Onofre ratemaking questions in a manner intended to fairly balance the interests of all parties.

“The settlement also provides a clear road map for SCE to pursue claims against Mitsubishi for the defective replacement steam generators it supplied for San Onofre. SCE, through the process specified in the purchase agreement for the steam generators, in October submitted a request for arbitration to the International Chamber of Commerce that seeks to hold Mitsubishi accountable for the substantial losses caused by the defective replacement steam generators for the nuclear plant.”

The proposed settlement, Litzinger added, includes a sharing mechanism between SCE and customers should financial recoveries come from insurance or Mitsubishi.

SCE announced June 7 that it would retire San Onofre Units 2 and 3, and begin preparations to decommission the facility. SCE has established core principles of safety, stewardship and engagement to guide decommissioning. For more information about SCE, visit www.songscommunity.com.

About Southern California Edison

An Edison International (NYSE:EIX) company, Southern California Edison is one of the nation’s largest electric utilities, serving a population of nearly 14 million via 4.9 million customer accounts in a 50,000-square-mile service area within Central, Coastal and Southern California.

All,

Please see the attached reactive statement regarding today's proposed settlement agreement regarding the CPUC's investigation of the San Onofre nuclear plant steam generator replacement project and the subsequent shutdown of the plant. I have also pasted it in.

Please share as appropriate with your key stakeholders. I have attached our cascade list.

The media relations team is using this reactively, however, we are reaching out to our key reporters who have been following SONGS.

Additionally, I have attached an internal FAQ and the 8K for your information - this is for internal use only - please do not distribute.

Thank you,

Liese

SCE Statement on State Regulatory Settlement Regarding San Onofre Nuclear Plant

ROSEMEAD, Calif., March 27, 2014 — Southern California Edison (SCE) today entered into a settlement agreement with parties in the California Public Utilities Commission (CPUC) investigation of the San Onofre nuclear plant steam generator replacement project and subsequent shutdown of the plant.

Ron Litzinger, president of SCE, issued the following statement regarding the settlement with The Utility Reform Network (TURN), the Office of Ratepayer Advocates of the CPUC and San Diego Gas & Electric:

“This proposed settlement means that customers don’t pay for the steam generator project after the tube leak at San Onofre, leaving SCE financially responsible for its ownership share in the project. Our customers will pay for replacement power they received.

“The settlement, if approved by state regulators, provides certainty regarding the appropriate cost recovery for the remaining investment in the San Onofre nuclear plant, replacement power costs and authorized revenues.

“We have worked closely with key consumer stakeholders to resolve the San Onofre ratemaking questions in a manner intended to fairly balance the interests of all parties.

“The settlement also provides a clear road map for SCE to pursue claims against Mitsubishi for the defective replacement steam generators it supplied for San Onofre. SCE, through the process specified in the purchase agreement for the steam generators, in October submitted a request for arbitration to the International Chamber of Commerce that seeks to hold Mitsubishi accountable for the substantial losses caused by the defective replacement steam generators for the nuclear plant.”

The proposed settlement, Litzinger added, includes a sharing mechanism between SCE and customers should financial recoveries come from insurance or Mitsubishi.

SCE announced June 7 that it would retire San Onofre Units 2 and 3, and begin preparations to decommission the facility. SCE has established core principles of safety, stewardship and engagement to guide decommissioning. For more information about SCE, visit www.songscommunity.com.

About Southern California Edison

An Edison International (NYSE:EIX) company, Southern California Edison is one of the nation’s largest electric utilities, serving a population of nearly 14 million via 4.9 million customer accounts in a 50,000-square-mile service area within Central, Coastal and Southern California.

Thank you Commissioner Picker. I will be speaking at a Safety Memorial Day observation at that time. My message to you is short and confined to procedural matters given ex parte rules. Yesterday afternoon, we signed a proposed settlement for the SONGS OII with TURN, ORA, and SDG&E. We will file for Commission approval and seek other parties to sign on. A summary of the settlement can be found in our public 8K filing with the Securities and Exchange Commission on our website Edison.com-- go to "Investors" and "SEC filings" the 8K is dated Mar 27. You can also call me After 11 am Pacific time. Thanks again

Hi Ron,

You were right about Peevey and the funding issue. He does not understand why we will not fund the UC data analysis program. He said Florio is supportive as well as he. He says he has talked to you and Ron about it and he is frustrated. He wanted me to pass along that SONGS is on a "tight schedule" and he would hate to see that "slip". He views SCE as just taking and not giving to a matter that is very important to him, Florio, and others.

I told him it's above my pay grade but he asked me to pass his frustration on to you, only. So there you have it.

I re read this note and wanted to make sure I did not leave the wrong impression. Mike in no way linked SONGS with funding for UCLA. He was making the point that he is fully committed to getting the Settlement approved as quickly as possible, no matter what. It was more an expression of his commitment to getting it done.

I hope there was no confusion. Also, there is no Ex Parte issue since it was him talking about procedure.

Hi Ron,

President Peevey called me over this morning regarding the UCLA research effort that he has been talking about for some time. He wanted to make certain that you had the attached letters from Garcetti, Yaroslavsky, and others. He also wanted me to convey that he views this as a charitable contribution and that the amount of that contribution is open to discussion and could be less than his original suggestion.

Thanks and let me know if you need me to do anything.
